Cisco *live!*

Accelerating your Career with Cisco Certifications

BRKCRT-2000

Danny Tomic
Marketing Manager, Learning@Cisco

Questions

The Questions You Should Be Asking

- Why am I here?
- What trends are we seeing in the market today?
- Where is Cisco in all of this?
- What does Learning@Cisco have to offer?
- What is the special sauce to accelerating my career?
- My Manager is not on board – what do I do?
- Where do I begin?

Why Are You Here?

Certifications Are a Strong Priority for Evaluating Candidates

86%

86% of IT hiring managers consider certifications a strong priority for evaluating candidates.

Source: CompTIA Employer Perception of IT Training and Certification, Feb. 7, 2011

Cisco Certifications Can Boost Salaries

Cisco certified professionals can realise premiums in salary 5 to 9 percent higher than non-certified professionals¹

Salary premium for Cisco network administrators = +9%²

The Talent Challenge

THE WALL STREET JOURNAL

Big Data's Big Problem: Little Talent

Here's a paradox: Your need to hire great technologists is at an all-time high, but the talent pool is shrinking

CIO

Worldwide, 1 in 3 employers experience difficulties filling vacancies due to lack of available talent

ManpowerGroup

CIOs Must Face the Talent Challenge

CIO

Addressing the Talent Challenge

Implement, manage and support the evolving landscape

Cost-effectively up-level skills and knowledge

Get training and certification for specialised skills

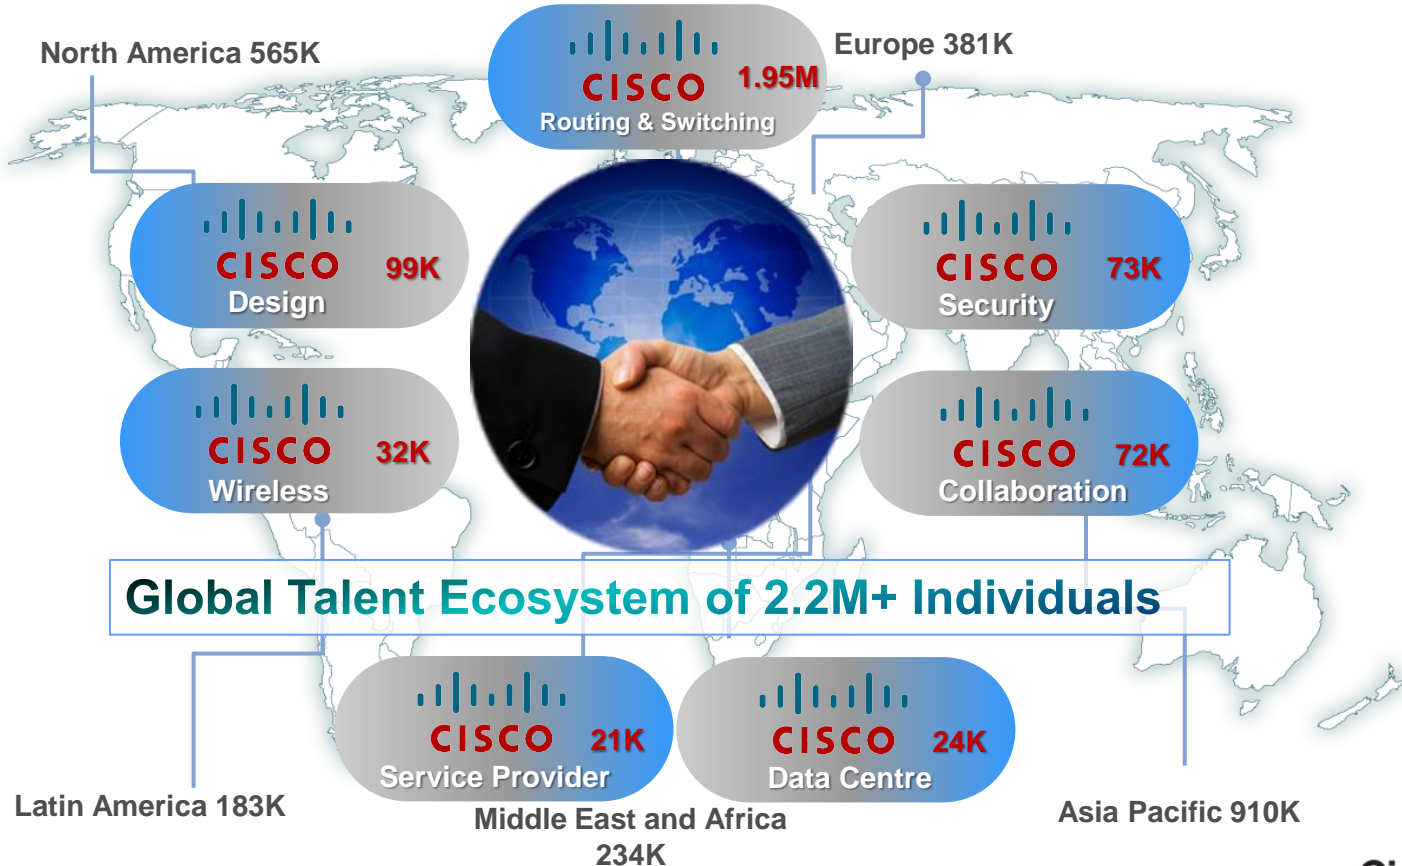

Find flexible ways to build knowledge and skills while balancing day-to-day job roles

Why Cisco?

Transforming Business with Unique Talent Ecosystem

Industry-Leading Best Practices

Manage Education Investments as a Business

Set goals that map to the business and measure results

Use Job Task Analysis and Design Workshops

Outside-in blueprint development based on real customer roles in industry

Offer Collaborative and Mobile Learning Programs

Create programs that scale, drive engagement and accelerate learning

Set Design and Development Processes

Scalable Quality Assurance Service – ANSI, ISO, 9001, certified practices

Create Sustainable and Visible Results

Systemic approach to communicate successes and drive business investment

Recruit and Reward Participation

Drive participation to company goals top down, reward student accomplishments

Cisco is the Leader in IT Training and Certifications

- Cisco is the IDC MarketScape leader for IT education.
- Great balance of speed, innovation and quality
- Scalability, depth and breadth are built into the program.
- Consistently growing double digits in revenue while “others” lag

So How Do I Accelerate My Career With Cisco Certifications?

My Top 5 tips for Accelerating Your Career with Cisco Certifications

1. Do what this guy is doing
2. Understand “Certification vs. Experience”
3. Employ the “Tip of the Spear” approach
4. Fill the gaps
5. Get your manager on board or get a new one

1. Do What This Guy is Going

Practice, study then practice and more study

...then practice some more

Use exam topics as your guide...

2. Understand “Certification vs Experience”

A long, long time ago....

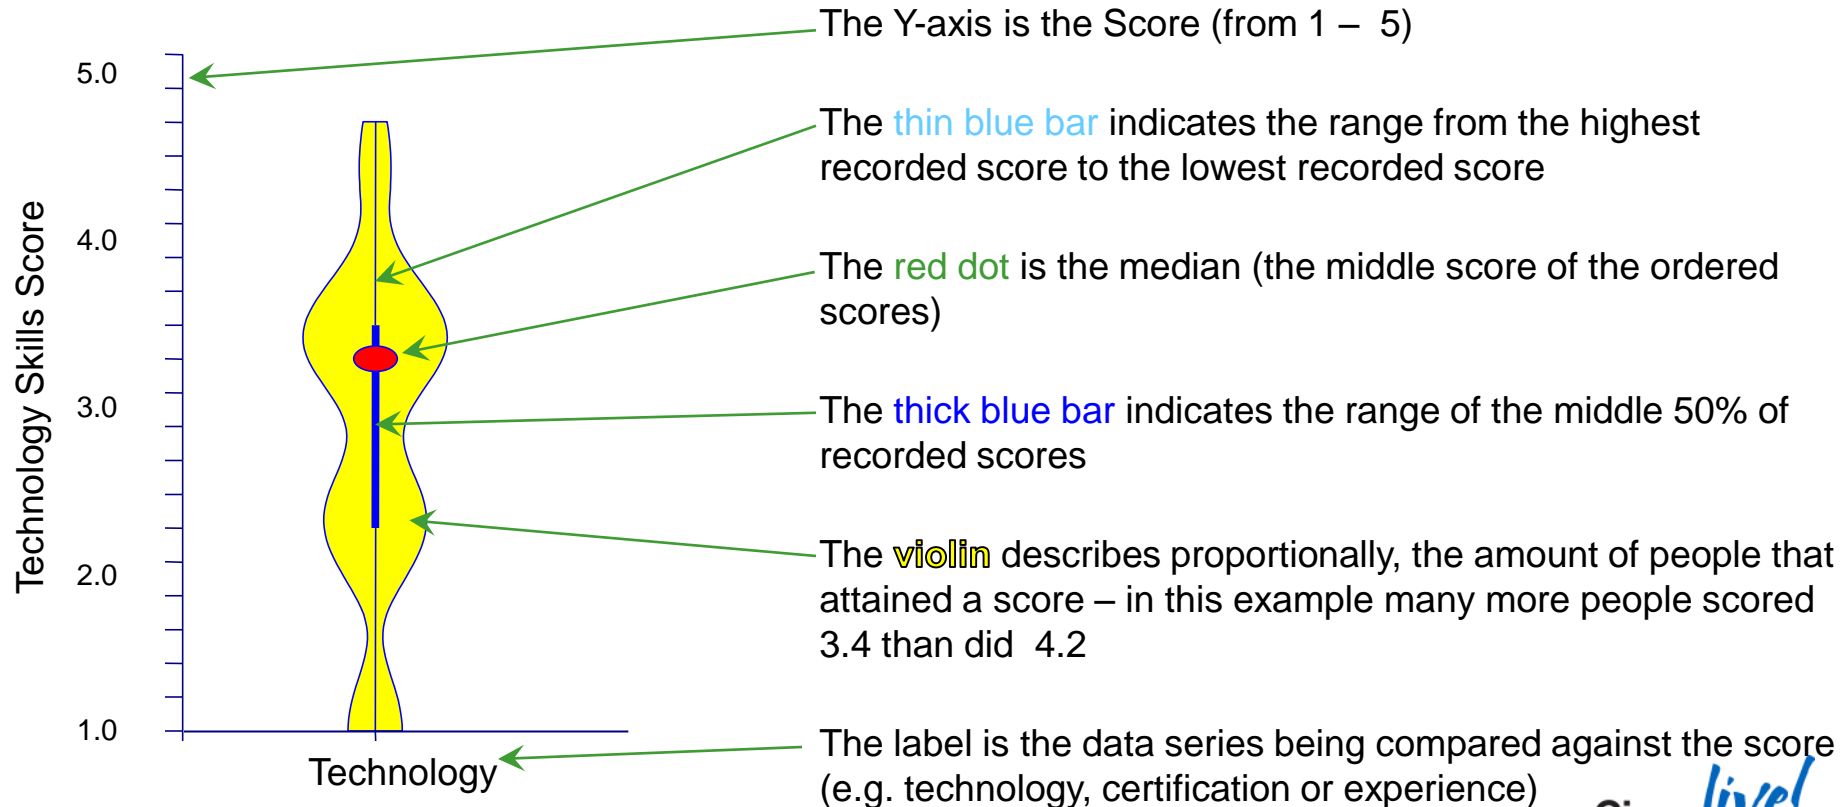

We ran an assessment program

We knew about statistics

We uncovered some interesting facts

2. Understand “Certification vs Experience”

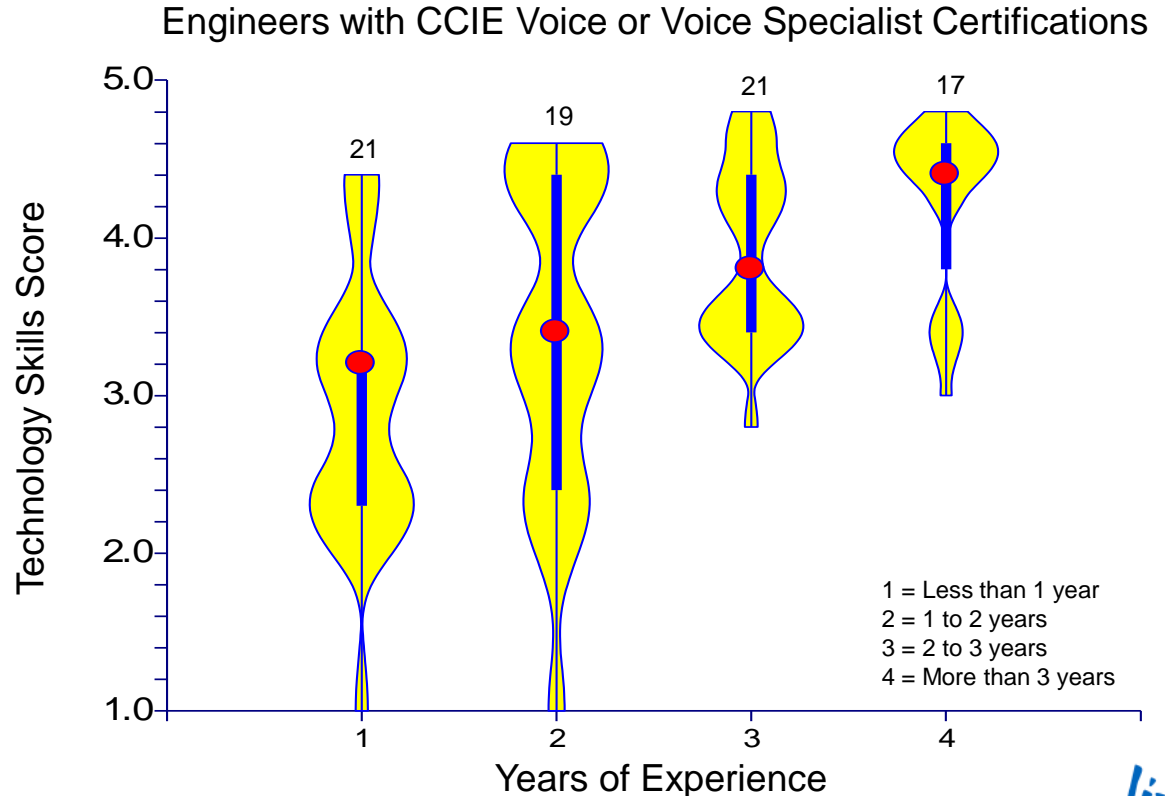

What is a “Violin” Plot?

2. Understand “Certification vs Experience”

The Results

- Sample of 78 Engineers spread evenly over four experience categories
 - 21 (<1 year)
 - 19 (1-2 years)
 - 21 (2-3 years)
 - 17 (>3 years)
- Strong correlation is evident
- All ‘low-scorers’ fall into the less than 2 years experience category

2. Understand “Certification vs Experience”

The Results – with CCIE Voice Engineers Marked

- Sample of 78 Engineers spread evenly over four experience categories
 - 21 (<1 year)
 - 19 (1-2 years)
 - 21 (2-3 years)
 - 17 (>3 years)
- Strong correlation is evident
- All ‘low-scorers’ fall into the less than 2 years experience category
- All CCIE Voice engineers scored over 3.4

▲ Denotes CCIE Voice

3. Employ the “Tip of the Spear” Approach

複数の専門分野を押さえてキャリアに差をつけよう

ネットワークにとって、音声とビデオは今や欠かせない要素になりました。また、アクセス手段としてワイヤレスは今後ますます普及していくことでしょう。ネットワークは成長とともに、様々な分野の技術を取り取り拡大していきます。多分野の技術が融合する環境では、ひとつの専門スキルに秀でているだけでなく、横断的なスキルを持つ人材が求められます。

資格を取得する際には、テクノロジーのつながりに目を向けて、計画的に取得しましょう。互いに関連した複数の分野の資格を持つとジャンルを超えた問題解決ができ、重要なタスクを任せられたり、より大きなプロジェクトに参加できるようになります。

テクノロジーのつながりからアプローチ

たとえば、「ルーティング & スイッチング」の認定を取得している場合、「ボイス」に必要なスイッチングの要点についてすでに学習していることでしょう。あるいは「ボイス」について勉強しているのなら、ワイヤレス ネットワークにおいて重要な QoS の概念をすでに理解しているでしょう。また、「ワイヤレス」が専門ならば、ネットワーク セキュリティの重要性を理解しているはず。つまり、これらのテクノロジーには重なり合う部分が多くあり、その両分野を押さえれば あなたのスキルは盤石になります。

セキュリティ エンジニアの一例

(右のロードマップ参照)

まず ① CCENT からスタートし、次に ② CCNA Security へ進みます。次に、CCNP Security を勉強しながら、セキュリティとも密接な ③ CCNA Voice を先に取得するとよいでしょう。そしていよいよ ④ CCNP Security を取得したら、⑤ CCIE Security を最終目標におきます。

CCIE Security を達成したならば、さらに上のスペシャリストを目指すか、あるいは CCNA Wireless を狙うのもいいでしょう。

つながりのある分野でワンクッションいれて、自分の専門分野の厚みを増しながら、着実にキャリア目標を達成できます。

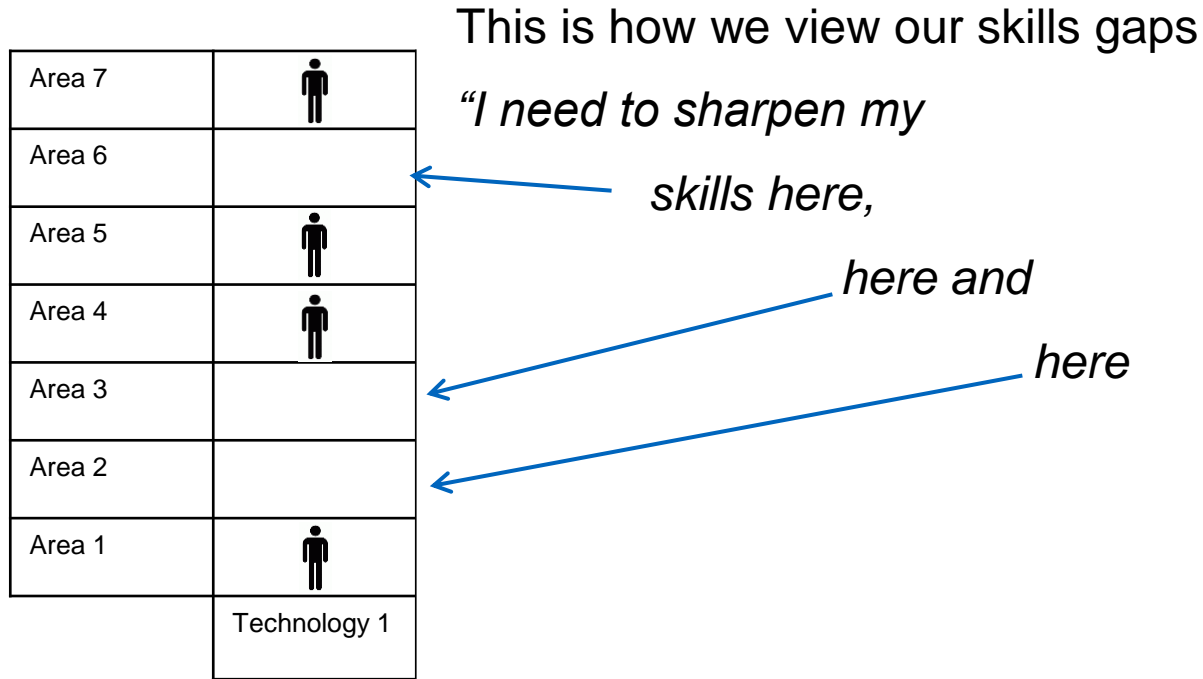

キャリア目標の参考としてお役立てください。

シスコ技術者認定ロードマップ

| 認定分野 | レベル | エントリー | アソシエイト | プロフェッショナル | エキスパート |
|---------------------|-----|---------|----------------------------------|----------------------------------|----------------------------------|
| デザイン | | ① CCENT | CCDA | CCDP | CCDE |
| ルーティング&スイッチング | | ① CCENT | CCNA R&S | CCNP | CCIE R&S |
| セキュリティ | | ① CCENT | ② CCNA Security | ④ CCNP Security | ⑤ CCIE Security |
| ワイヤレス | | ① CCENT | CCNA Wireless | CCNP Wireless | CCIE Wireless |
| データセンター | | | CCNA Data Center | CCNP Data Center | CCIE Data Center |
| コラボレーション | | | | | CCIE Collaboration |
| ビデオ | | | CCNA Video | | |
| ボイス | | ① CCENT | ③ CCNA Voice | CCNP Voice | CCIE Voice |
| サービス プロバイダー | | | CCNA Service Provider | CCNP Service Provider | CCIE Service Provider |
| サービス プロバイダー オペレーション | | ① CCENT | CCNA Service Provider Operations | CCNP Service Provider Operations | CCIE Service Provider Operations |

- Use the tracks to your advantage
- Mix it up
- Keeps it interesting
- Multiplies your value

4. Fill the Gaps – How we see a Skills Gap

4. Fill the Gaps – How our Manager sees a Skills Gap

5. Get your Manager on Board – or Get a New One

“What if I SPEND all this time and money to train them and then they LEAVE?”

“What if we don’t train them and they stay?”

Benefits of Training and Certifications to Employers

Productivity, Performance, Increased Customer Satisfaction:

- The right skills to ease deployment, use products to their fullest, and get the most out of the IT investment.

Increased Customer Satisfaction:

- IT training increases customer satisfaction. Trained workers know how to solve problems more quickly and with a greater success rate.

Lower Costs

- Skills to efficiently handle issues that arise. Less downtime equals lower costs.

Benefits of Training and Certifications to Employers

Better Return on Investments

- 92 percent of employers find their employees more effective after certification.¹
- 90 percent of employees reported that they gained new knowledge from training that could be used in their current position.²

Talent Attraction and Retention

- 98 percent of IT workers surveyed by Robert Half Technology (RHT) said the ability to acquire new skills is very important when evaluating a job opportunity.

Cisco Designated VIP Program

Recognises a select group of top external contributors in the Cisco Support Community and the Cisco Learning Network

Drives continued success by empowering and rewarding contributors to ensure ongoing participation and engagement at all levels of expertise

Rewards VIPs in the form of privileged and differentiated access to Cisco resources, attracting additional top contributors

The Cisco Networking Academy

- Excellent foundation for high schools and higher education.
- Now expanded to include curriculum in a variety of Cisco areas and with other top IT leaders.
- Offers interactive learning experiences, online assessments, hands-on labs, additional opportunities to practice with Packet Tracer, instructor training, and preparation for industry certifications.
- Seven courses in four curricula cover various IT concepts and skills.
- Student benefits include:
 - Certificate of course completion
 - Congratulatory letter
 - Alumni program and career connection
 - Discount certification vouchers
 - Skill-set inventory

Online Product Training Portal

- 12-month subscription service
- Contains 10,000 e-learning modules
- Covers most Cisco products

Key Technology Topics

- Provides access to intermediate and advanced-level training topics

Benefits

- Just-in-time training, 5 to 20 minutes
- Aligned to current architectures

New Cloud-Based Services Offering
www.cisco.com/go/cte

Custom Content and Training Delivery

Instructor-led Training Service

- Includes hands-on lab exercises
- Various technologies and solutions

Delivered

- Privately at customer site
- Publically as open enrollment
 - Go to www.cisco.com/go/ase for schedule

Selected Courses Delivered Virtually by WebEx

Course Customisation Service

- Standard courses can be modified to support customer request/ need(s).

Accelerate your self sufficiency with ASE

Strengthen your company's competitive edge using Cisco Advanced Services Education's (ASE) comprehensive approach to staff development and training.

Now Available: Virtual Training Service Offerings

In response to customer feedback to reduce time in the classroom, as well as costs associated with training, we have created Virtual Training Service (VTS) offerings. VTS refers to training sessions that are focused on single topics, thus shorter in length and delivered virtually thru Cisco's WebEx application. These sessions cost less than a five day course, reduce your time away from the office and do not require travel. Go to [Virtual Training Services](#) for more information on what is currently available.
