

Agents on the Wire

cisco Live !

Securing the Network When Attackers - and Your Apps - Run on AI

AJ Shipley
VP Product Management, Threat Detection & Response

Some of the features mentioned are still in development and will be made available as they are finalized, subject to ongoing evolution in development and innovation. The timeline for their release is subject to change.

New

Available Today

The screenshot displays the Cisco Meraki Access Manager interface within the Meraki Dashboard. The left sidebar contains navigation options: Network Assurance, Secure Connect, Network-wide, Assurance, Security & SD-WAN, Switching, Wireless, Insight, Organization, Security (marked as New), Automation, and Access Manager (marked as New). The main content area is titled 'Users' and includes a 'Summary' section showing 19 Users and 10 User groups. An 'IdP Sources' section shows 1 Synced source and 0 Not Synced sources, with buttons for Sync, Configure, and Create IdP. Below this is a table of users with columns for Username, Status, IdP source(s), User group(s), Channel(s), and Account update time. The table lists 10 users, all with a status of 'Synced' and an IdP source of 'MerakiNation-EntraID'. The user groups are: LAB, LAB GUEST USERS, LAB CORPORATE USERS, LAB, LAUNCHPAD, SE, ADMIN, and SALES. The channels are: LAUNCHPAD, SALES, and IPV6. The account update times range from Mar 5 2025 15:47 to Aug 4 2025 17:15.

Username	Status	IdP source(s)	User group(s)	Channel(s)	Account update time
